

Project Need

What is a Project Need?

A **Project Need** is a problem or an issue that can be addressed through project planning and development.

Why is this project needed?

- n To address future traffic congestion along the I-10 Corridor through the year 2030.
- n To address roadway deficiencies within the I-10 Corridor such as narrow ramps and insufficient area for acceleration and deceleration.
- n To provide continuous parallel access to I-10 within the project corridor.
- n To support objectives of the CANAMEX Trade Corridor which includes this important segment of I-10.
